

Syed Mohiuddin

Master of Cybersecurity Student | Interim Operations Supervisor | Aspiring Security Analyst

Altona North, VIC, Australia | 0430050220 | Syedmohiuddin058@gmail.com | syedmohiuddin@syednexus.com

PROFESSIONAL SUMMARY

Cybersecurity postgraduate student with experience across Amazon operations, fraud investigation, logistics leadership, and healthcare. Skilled in risk analysis, investigation workflows, operational problem solving, stakeholder communication, and process improvement. Currently developing practical cybersecurity capabilities across Linux, networking, vulnerability assessment, web security, SIEM concepts, and penetration testing through hands-on labs and certifications.

WORK EXPERIENCE

Interim Operations Supervisor – Sortation Front Half Team | Amazon DVT1 | January 2026 – Present

- Lead daily sortation operations by coordinating associate deployment, workflow execution, volume management, and shift priorities to achieve operational targets.
- Monitor key performance indicators including productivity, quality, safety compliance, and process adherence while identifying opportunities for operational improvement.
- Support and coach associates by providing guidance on standard work procedures, resolving process barriers, and promoting a safe and efficient work environment.
- Partner with Area Managers, Process Assistants, and support teams to manage escalations, improve shift performance, and drive continuous improvement initiatives.
- Analyze operational challenges, identify root causes, and implement corrective actions to improve efficiency and reduce workflow disruptions.
- Assist with Labour planning, station readiness, and communication of daily goals to ensure smooth execution across sortation operations.

Delivery Station Associate / TDR Associate | Chandler Macleod (Amazon DVT1) | Aug 2024 – Jun 2026

- Performed Trailer Dock Release (TDR) activities while maintaining safety and compliance standards.

- Supported dock operations, package stowing, picking, staging, and dispatch processes.
- Identified operational defects and assisted with problem-solving activities.
- Worked collaboratively in fast-paced delivery environments to meet performance targets.

Transaction Risk Investigator | Amazon Development Centre | Apr 2024 – Jun 2024

- Investigated 100–120 suspicious transactions per shift with a 98% accuracy rate, utilizing fraud detection tools to enforce anti-abuse and AML protocols.
- Reduced financial loss and cut repeat fraud attempts by 25% through early high-risk detection and cross-functional collaboration with Risk Ops and Compliance.
- Exceeded productivity benchmarks while maintaining 95%+ QA/CSAT scores and ensuring 100% accurate documentation for audits.

SDS Associate FLEX | Amazon Development Centre | Aug 2023 – Feb 2024

- Resolved 80–100 live inquiries per shift via chat/voice with a 98% first-contact resolution rate.
- Ranked in the Top 10 SDS Associates globally for exceptional productivity, quality, and a 4.7/5 CSAT.
- Reduced escalations by 15% by collaborating with specialized internal teams (LMAQ, AO, Product).
- Exceeded targets with 95%+ SLA adherence and improved team ticket efficiency by 10% via SOP updates.

SDS Associate CAP | Amazon Development Centre | Feb 2022 – Nov 2022

- Resolved 80–100 complex cases daily via email/chat with a 95%+ first-contact resolution rate, specializing in concession abuse.
- Investigated misuse patterns and collaborated with fraud teams, reducing recurring abuse cases by 20% and investigation cycle times by 15%.
- Maintained 100% accuracy in CRM tracking and data privacy compliance for all sensitive cases.
- Consistently exceeded KPIs, maintaining a 4.6+/5 CSAT score and improving customer policy compliance by 12%.

Digital Interaction Advisor | 247.AI | Jul 2021 – Nov 2021

- Managed 100+ daily omni-channel interactions for online shoppers, maintaining a 4.6+/5 CSAT score.
- Resolved complex e-commerce queries (logistics, troubleshooting, accounts) with 98% accuracy.

- Reduced escalations by 20% through proactive problem-solving and high first-contact resolution.
- Leveraged CRM and ticketing systems to document issues with 100% data privacy compliance.
- Exceeded daily metrics for resolution speed and QA, while optimizing help center support scripts.

CYBERSECURITY PROJECTS & LABS

- Nessus Vulnerability Assessment Lab – performed scans, analysed findings, CVSS severity, and remediation approaches.
- Network Security Lab – configured Kali Linux and Windows virtual environments for security practice.
- Web Security Practice – used Burp Suite concepts and studied OWASP Top 10 vulnerabilities.
- Packet Analysis – practised network inspection concepts using Wireshark.

CERTIFICATIONS

- Cisco – Foundations of Cybersecurity (Completed)
- TryHackMe – Cyber Security 101 Learning Path (Completed)
- CompTIA Security+ (In Progress)
- TryHackMe SOC Analyst Level 1 / Junior Penetration Tester Pathways (Learning)

TECHNICAL SKILLS

Security: Vulnerability Assessment, Threat Analysis, Risk Management, OWASP Top 10, Security Monitoring

Tools: Nessus, Burp Suite, Wireshark, Nmap, VirtualBox, Linux CLI, R studio

Networking: TCP/IP, DNS, HTTP/HTTPS, Ports and Protocols

Programming: Python, HTML, CSS, Java Basics, Ruby foundations,

EDUCATION

Master of Cybersecurity | AAHE | Feb 2025 – Present

Bachelor of Pharmacy | Jawaharlal Nehru Technological University Hyderabad | 2019 – 2023
